

**The Stockton University  
School of Health Sciences  
Nursing Program**

Revised Technical Standards and Functions for Nursing Students

Effective: October 1, 2013

Review: May 2015

Revised – August 2020

The Stockton University Nursing Program has a responsibility to educate competent nurses to care for their patients (persons, families and/or communities) with critical judgment, broadly based knowledge, and well-honed technical skills. The Nursing Program has academic as well as technical standards that must be met by students in order to successfully progress in and graduate from its programs.

Nursing is a discipline that requires a range of psychomotor and psychosocial skills. Stockton University's Nursing Program ensures that access to its facilities, programs and services is available to all students, including students with disabilities, as defined by the Americans with Disabilities Act of 1990 ("ADA"), 42 U.S.C. §§ 12101-12212 (2013) (amended 2008) and

student must be able to respond promptly to urgent situations that may occur during clinical training activities and must not hinder the ability of other members of the health care team to provide prompt treatment and care to patients.

**Technical Standards:** The following description/examples of technical standards are intended to inform prospective and enrolled students of the standards required

- x Sit, stand, move within classrooms, labs, acute nursing units, operating rooms, emergency rooms, community settings, and long-term care facilities for as long as
